

## Real life Example : Going on trip

**Plan** - We first decide where we want to go . What all places do we want to visit.

**Prepare** - Next we finalize the budget of the trip and do packing of necessary things like clothes.

**Process** - Then we check the availability of flight ticket and hotel reservation.

**Analyze** - We obviously look how many people are coming with us and accordingly book the transport and accommodation.

**Share** - Now we gather any idea or changes that other person want to make , which would better our trip.

**Act** - Now , after everything done . *We are ready to go on a trip.*
